<u>**Listing of Claims:**</u>

This listing of claims will replace all prior versions, and listings, of claims in the application:

1.   (Currently Amended) A system having a graphical user interface for navigating through content, the system comprising:

    <u>a display having:</u>

        a history panel for displaying navigation history data, and

        at least a first panel displaying a first menu of a content structure, the first menu including one or more selectable items;

        wherein the navigation history data ~~is updated with a reference to the menu displayed in the first panel after selection of an item of the menu~~ <u>provides a reference for at least one of a number of selections in accordance with a plurality of criteria.</u>

2.   (Previously Presented) The system according to claim 1, further comprising at least a second panel for displaying a first sub-menu of a currently highlighted item of the first menu.

3.   (Cancelled)

4.   (Previously Presented) The system according to claim 2, wherein the first menu in the first panel is replaced with the sub-menu of the second panel after selection of an item in the first panel.

5.   (Previously Presented) The system according to claim 4, wherein the sub-menu in the second panel is replaced with a sub-menu of a currently highlighted item of the first sub-menu.

6.   (Previously Presented) The system according to claim 1, wherein the navigation history data includes a reference to previously selected menu(s).

7.   (Previously Presented) The system according to claim 1, wherein the navigation history data is displayed as pictograms.

8.   (Previously Presented) The system according to claim 1, wherein one or more layered panels show the navigation history.

9.   (Previously Presented) The system according to claim 1, wherein the content structure includes a main menu starting point.

10.   (Previously Presented) The system according to claim 9, wherein the navigation history data includes navigation history data starting from the main menu starting point.

Claims 11-13. (Cancelled)

14.   (Currently Amended) A method of navigating through content, the method

comprising:

        displaying elements representing navigation history data in a navigation history

panel; and

        displaying at least a first menu of a content structure in at least a first panel, the

first menu including one or more selectable items;

        wherein the navigation history data is updated with a reference to the menu

displayed in the first panel after selection of an item of the menu provides a reference for

at least one of a number of selections in accordance with a plurality of criteria.

15.   (Previously Presented) The method according to claim 14, wherein the elements

representing navigation history data are active elements.

16.   (Previously Presented) The method according to claim 15, wherein the selection

of an active element causes the navigation to revert to the selected data in the navigation

history data.

17.   (Cancelled)

18.   (Currently Amended) A computer readable medium storing a series of programmable instructions configured for execution by at least one processor for performing a method of providing navigation through ordered content, the method comprising:

displaying means for displaying elements representing navigational history data in a navigations history panel; and

at least a first menu of a structure in at least a first panel, the first menu including one or more selectable items;

wherein the navigation history data ~~is updated with a reference to the menu displayed in the first panel after selection of an item of the menu~~ provides a reference for at least one of a number of selections in accordance with a plurality of criteria.

19.   (Cancelled)
